LEVEL 3 ENRICHMENT: GAME BOXES

For this extension, you will be creating appealing storage for your games.

You may use any supplies that you have handy.

Make sure that your storage is efficient and appealing to someone your age. Get as creative as you would like. Pretend like you're going to market this in a store.

Make sure your title is highly visible, and your rules are clearly displayed.

Feel free to add an extra layer of creativity by creating additional game pieces as well as a barcode.
