Home to School Connection: Building Relationships

Standard Focus: TEKS 6C

The TEKS explained:
Before, during, & after reading, use text features to make & confirm predictions.

What it means to me:
I need to use text features, while I read, to help me make accurate predictions.

Dear Family,

I recently took a practice assessment. After looking over my responses, we realized that I need a little assistance. You can help me practice this skill by asking me the following questions and doing the activities with me. I am excited to share with you the great thoughts inside my brain!

Thank you for always wanting to help me be successful!

Ask the following questions to spark discussion and thinking toward this skill:

1. Look out the window. What do you think the weather will be like today?
2. Do you smell that? What do you think is cooking in the kitchen?
3. I'm going to hum the beginning of a song. What song do you think it is?

Enjoy the following Activity that will help me with this this skill:

Adult: Have your child gather a few small toys and place them in a box. Cover the box with a towel. Next have your child place their hand in the covered box. Then encourage them to make a prediction about which toy they are touching using their sense of touch. They will then pull out the toy and confirm if their prediction was correct or incorrect. Take turns making predictions.
