Home to School Connection: Building Relationships

Standard Focus: TEKS 7C

The TEKS explained:
use text evidence to support an appropriate response.

What it means to me:
find evidence or details that support my answer

Dear Family,

I recently took a practice assessment. After looking over my responses, we realized that I need a little assistance. You can help me practice this skill by asking me the following questions and doing the activities with me. I am excited to share with you the great thoughts inside my brain!

Thank you for always wanting to help me be successful!

Ask the following questions to spark discussion and thinking toward this skill:

1. What is the weather today? What evidence proves that to us?
2. What did we have for dinner? Can you think of evidence to show that is true?
3. What room are we sitting in right now? What is some evidence of your answer?

Enjoy the following Activity that will help me with this this skill:

Adult: Give your child a bag, box, or basket to collect things from around a certain room in your house. Both of you collect things from different rooms. Show each other the "evidence" in each of your containers. See which one of you can guess the room the items are from. In the fewest guesses. The evidence collected from each room provides the proof of the room each of you selected.
